OUR NEW MINISTER TO FRANCE -P-rhaps in no other lagic iesta ce has the essential Disuzioni of the Democracy appeared more strikingly end off-neively than in the recent oppointment of a Minister to France. The circumstance hes scarcely

attracted the attention it deserves. Thera were two and only two prominent candidates for the vscan' Prench mission. These were J bn A Dix, of New York, and Charles J. Faulkner, of Virginia.

Mr. Dx supported Martin Van Buren on the Buff to platform in 1848, but subsequently returned to the Dem cratic fold, and during the Pierce Ad sninistration was held to be so thoroughly reinstaed that Mr. C. brie as all will remember proscrit ed e regulor L. actat for prototibleg or rather for not preferring Dix's friends. The stnin of his freegoilism was declared to be wholly washed away. And nobody pretends that Mr. Dix has since that time either said or done anything to sally the good | place he is naturally supposed to have gone to. as virgin lastre of his Demccrecy. On the contrary, he has done some things which ought to heighten it in the estimation of all petriotic Democrats, one weeks ago in the city of Naw York. As for the rest, 3Ir. Dix suitably represented the Empire State in the Senate of the Veiled States for a full term, is a man of high abuiltie, of ripe political experience, and of the first order of accomplishments, qualified emirently in ell respic's, in abert, for the brilliant discharge of the duties of a thest-plass mission. Mr. Faulkner, his competitor, was as late as 1952, and we know not how much later, a free-soiler of the intensest slamp, uttering publicly such

It is the fortune of some great and gifted mitds to see far in advance of their chi emporaries. Should Wm. 11. Seward he elected in 1860, where is the min now in uur ui'ds who would not call for the impeachment of a Gov nrecory to pass under the control of such an Exec-

He is a fifth-rate man On the score of ability, of culture, of attain ments, of aptitude for public affairs, of fitness generally, Fan'keer is hardly worth mentioning in the came day with Dix. "He ie," save even a S uthern Democratic fournal, "a man of very or dinary ability, presessing neither claims or the requisites for the representative of a great govern-

A DECNEARD'S BEVING .- The elartling dectrines taught in "Youman's Basis of Probibition" are fully corroborated by the following passage from the Boston Medical Journal:

Now and then he would congratulate his class upon the possession of a drunkard's brain admirably fitled, from its hardness and more comadmirably fitted, from its hardness and more com-pleto preservation. For the purpose of demonstra-tion. When the anathurist wishes to preserve a human brain for any length of time, he effects his object by keeping that organ in a vessel of al-cohol. The Cardinal Saconi, the Pope's Nuce in at Paris, offended, and no doubt alarmed at these domonstrations, took a copy of the Siecie and of the panishlat and went, the same day, to see M. Watewski. He demanded for the Siecie a "waiting," and that the French Government should disayow the pamphlet and its doctrines. M. Welewski had a different plan and a dipomatist at stake. Napoleou had his refunction before posterity as an all-powerful monarch a stake.

From all this it results that, as I have already letimated on former occasions, the manifesto of St. Sauv. ur and other documents, showing an apparent leaning toward an Austrian policy, were acts of M. Welewski, remitted by the Emperor in order to dissepgaga his word with Francis Joseph, and to give time for I sly to unach to far forward toward an independent orgenization that the mutual promise of former iterevention world save here. So that sfer all we are to have the annexation of the Duchios and thin Remagna to Piedmont, or, at worst, the creation of an independent kingdom in Central Italy. The opinion is growing in Parla that Austria, Rome, and Naples, seeing the danger with which their cause is menaced, intend to make a strugglo for the restoration of the Grand Dukes and the conquest of the Komagna by force of arms. Large numbers of Austrians have been enrolled intaly in a calculate the Romagna by and it is said that numers of Austrians have been enrolled intaly in the ranks of the Pontifical army, and it is said that recruiting officers for this army have made their appearance even at Marseilles. Here, again, we see the long sighted wisdom of Louis Napoleon in leaving an army of sixty thousand mon in Italy, in a Nashville paper has compiled the probable our aves were foreseen by the Emperor, and that his potacy is unrolling itself exactly as he conceived it on the banks of the Mincio. One thing is certain, that great dissatisfaction exists in Austra at the results of the Jata wur, that disaffection exists in Concentration, that great dissatisfaction exists in Austra at the results of the Jata wur, that disaffection exists in cone third at least of the Austrian Empire from other causes, and that the Emperor Prancis Joseph Florida, 1,200; Missouri, 1,200; Texas, 1,000; Arbanas, 3,000; Water & Fox, Mada, het Sthamses, 1,000.

In England, astonishment is expressed that M. de Persigny is not called to the Foreign Office by the Emperor. But here I have a little piece of private scandal for your car, which will axplain the mystery. M. do Persigny would long ago have been called to this important post if it were not for the presence in the Cabinet of M. Fould, with whom he absolutely refuses to associate, on necount of a private difference between them. But why, If M. de Persigny is so generally deemed the fit man for the place, is not M. Fould invited to resign? In answer to this question there are two reasons assigned. The first is, that the Empress absolutely clings to M. Fould as the only man competent to off the Emperor, while the second is, that M. Fould being a Jew and a millionaire, and by his hanking connections with other rieb Jaws (for nearly nil the tillionalroa of Paris at this moment are Jews, equivalant in his money-value to the Bank of France, the Emperor is afraid to offond so important an an element in the stability of his govarnmant.
